

# IN THE SALON

The latest tools, toys and technology.

## 01 SALON CONCEPTS

The Special Edition Centrix 5000 dryer from Salon Concepts is quiet, powerful and produces gale-force currents of up to 80km per hour, making blow drying fast and efficient. It features jet force propulsion, separate heat and speed controls, a cold shot button and removable intake filter for easy cleaning. (02) 9526 0777 or [www.salonconcepts.com.au](http://www.salonconcepts.com.au)

## 02 PAUL MITCHELL

Paul Mitchell's Express Ion Complex Brush features an Express Ion Complex which reduces static and flyaways while speeding up drying time. Corkscrew bristles provide ideal tension for a smooth finish, the lightweight handle provides a slip-free styling experience and it's available in four sizes to suit any styling request. 1300 365 350.

## 03 SALON CONCEPTS

Cricket Friction Free Cutting Combs are manufactured using a blend of polymers to reduce damage and create a smooth finish. They have ionic properties, are heat resistant, ergonomically designed for comfort and are lightweight and flexible to make cutting and styling a breeze. (02) 9526 0777 or [www.salonconcepts.com.au](http://www.salonconcepts.com.au)

## 04 MUK

Muk Style Stick features tourmaline ceramic floating plates for smooth static-free shine and ion field technology to seal the cuticle layer of the hair. With rapid heat-up and adjustable temperature from 80 - 120 degrees Celsius, its sleep mode turns off after 30 minutes, ensuring peace of mind. Contact muk haircare 1300 768 64.

## 05 WESTON IMPORTS

Angel or Devil scissors from Weston Imports both feature an ergonomic design with a short thumb handle for easy cutting, semi-integrated cutting edges, unique hardening for durable sharpening and a patented screw for fine adjustment. They offer precise cutting every time, whether you're feeling naughty or nice. (02) 9898 0299 or [www.westonimports.com.au](http://www.westonimports.com.au).

## 06 SKIN PHYSICS

The Skin Physics Photon LED Photo Rejuvenation System offers the power of LED light therapy with a simple DIY hand held device. The non-invasive treatment can help reduce signs of skin ageing, hyper-pigmentation and rosacea, offering all the benefits of infrared LED light therapy from the comfort of home. Contact: Skin Physics 1300 209 913.
